Cox, Athens, Alabama; A. F. Gibson, Baltimore.

Miss Emma Cranch, A very charming contralto, appeared at Cochran hall last night before, we regret to say, a very small, though a very enthusiastic audience, supported by Arnold's band. Memphis has heard but few singers her superior. To a very sympathetic voice of very great range she unites the best schooling, singing with an ease and abandon that is a great source of enjoyment to all who hear her. Her selections last night were Rossini's Di Tanti Palpiti, Sullivan's Let Me Dream Again, and Gounod's There's a Green Hill Far Away. Evi-

dencing a very superior taste and a conscientious desire to maintain a well-earned reputation, these also served the purpose of enabling her to show the compass, power and cultivation of a voice that will yet be confessed by the music-loving people of Memphis to have more charms for them than any they have heard since Adelaide Phillips was here. On Friday night she will sing again, and, we learn, will, by special request, give Kathleen Marourneen. Arnold's band, which should be the pride of all Memphians, will also appear and render with their usual accuracy,

The following petition was presented by Councilman Worsham and referred to the fire committee:

Memphis:

The Memphis signal telegraph company, of Memphis, Tennessee, respectfully submit the following proposition to establish a public fire-alarm telegraph within the corporate limits of said city: The said Memphis signal telegraph company will erect the wires and put up boxes or instruments at any and all points or places within the corporate limits of said city, whenever designated by the proper authorities; operate and maintain said fire-alarm telegraph, and perform all duties necessary for an efficient fire-alarm service; furnish monthly reports of all real and false alarms, and guarantee an acceptable service without further coat to said city than the corporate into for any other year or purpose. In other words, the taxes due for a previous year cannot properly be used to supply a deficient cy in those for the present year. The question before you is simply this: The city schools are well established, and have been in operation, with more or less success, for many years. They are now about to enter upon a new scholastic year. It is evident that, in all probability, there will be a large deficiency in the amount necessary for their operation during the year. Will you increase this difficulty and add to the embarrassments by refusing to allow to their support that to which they are justly entitled? Or will you without further coat to said city than the

authorities of said city purchase and erect in each enginehouse of the fire department of said city an electric gong upon which alarms can be sounded, and that fifty (50) or more boxes or instruments are rented within one was from date of contract with its teachers and other employes for the ensuing year, it is important boxes or instruments are rented within one employes for the ensuing year, it is important year from date of contract, said rental to be that the board should, if possible, be inpaid monthly into the hands of an author- formed of your final action on the matter beized collector of said company, and to be in current money, or its equivalent. GENTLEMEN-The board of education of the Memphis city schools have instructed us, cially of the orphans and the poor, for in accordance with the ninth section of their charter, to report to your honorable body in their behalf the following estimate of the ex-

ter providing that they shall report an esti-

mate of their expenses to the mayor and

board of aldermen of this city, continues "who"

(that is, the mayor and board of aldermen)

"shall thereupon proceed to levy a tax upon such property as is taxed for other city pur-poses sufficient to cover such expenses; pro-vided it shall not exceed a ratio of ten dollars

for every youth between the ages of six and

twenty years, and the mayor and board of al-

dermen of the city of Memphis shall be held

esponsible for the collection of said tax." The

oard have also made the following estimate

This estimate was made after consultation

with the county trustee, and other officers who

are supposed to have the best information on

the subject, and with a view to the reduction

in the assessed values of taxable property

and with the expectation that the city would

allow ten cents on the \$100 for the use of the

schools as heretofore. And it includes all that can probably be collected for the taxes of

previous years, so that no calculations can be

reasonably made for increasing the amount

from that source. If the estimated income (\$49,600) be deducted from the expenses as estimated (\$57,059), there will be left a deficiency of \$7459, for which the board will not

have the means to provide. Since these esti-mates were prepared the board has seen with

regret that your honorable body, in assessing

and appropriating the taxes to be paid for

the present year, have determined that while

the whole amount of the taxes should be 190

cents on each \$100 worth of taxable property

in the city, only five cents of that amount

shall be appropriated to the public schools.

The result of this, if it be carried into

one-half-namely, from \$16,500 to \$8250-

and the whole income of the school from

\$49,600 to \$41,350, and consequently to in-

crease the deficiency from \$7459 to \$15,600,

which would of course render necessary the

most serious changes in the management of

the schools. The board of education are un-

willing to believe that it is your deliberate

purpose to impair the usefulness of the city

schools, by depriving them of any part of the

desire to reduce the amount to be paid for the schools, but that they proposed to make up the deficiency in the taxes from some

COTTON TIES.

Grip Cotton Tie!

First Premium Awarded by the Texas State Fair of 1877, the "Arrow Tie" Being One of its Competitors. Office of J. R. Godwin & Co., Cotton Factors, Memphis, Tenn., August 24, 1877.

I N offering to planters and merchants the Grip Tie, the following advantages are claimed for it: Simplicity of application, greater strength both of the Tie and Band, close adjustment and freedom from slip, which prevents any expansion of the bale, and the impossibility of removing the band without cutting it. dent to planters, especially the greater strength of the bands. Whenever the band breaks the cotton is liable to be wasted or pilfered; besides, most local freight rates on railroads and steamboats are so much per bale, also drayage and storage. Hence the importance of putting up heavy bales at plantation presses. importance of putting up heavy bales at plantation presses.

The strength of the Grip Tie is from 2800 to 3000 pounds. The Arrow Tie, from 1800 to 2000 pounds. For compressing cotton bales we defy competition—and this, in the future, is to determine the merit of cotton ties, as the closer the cotton can be compressed the cheaper it can be transported from one point to another.

The recent reduction in the price of Ties was probably due to the competition of the Grip Tie. All are aware that the American Tie Company have for years had a monopoly in the Tie business. This fear, however, they are only offering the Arrow Tie. This they have placed in the hands of all dealers with whom they could contract to keep no other Tie in stock, endeavoring thereby to drive out all competition. Therefore, we claim it is to the interest of all consumers of Ties to use the Grip Tie: First, because it is superior in every respect to the Arrow Tie; second, because you are assisting to throw off the shackles of a monopoly.

Order through your own merchant, or direct from us; the price in either case shall be as low as the Arrow Tie.
